1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Robert C. Freed on 07MAY04.

3. The application has been amended as follows:

Claim 20:

Line 1, "claim 19" has been changed to --claim 17--.

4. The following is an examiner's statement of reasons for allowance: the prior art does not show or make obvious Applicant's locking member in conjunction with the other claim limitations.

The claims of this application differ from the parent application because of the following argument presented by the Applicant's representative in a telephonic interview:

"...the new claims (of this continuing application) recite a different invention (from the parent application, now U.S. Patent US 6,543,835 B2) because they recite cooperative engagement under a certain set of circumstances rather than in a certain place or places or in a certain way because they only recite the end plate being in a certain position (locked in a secured position) under certain circumstances, rather than how or in what way (pivoting) the end plate arrives there."

Art Unit: 3612

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
